

## PRESS RELEASE

September 29, 2004

### **THRANE & THRANE LAUNCHES NEW PORTABLE SAILOR GMDSS VHF – SAILOR SP3300**

Thrane & Thrane - the world's leading manufacturer of radio and satellite communication equipment – launches a new portable GMDSS VHF SAILOR SP3300 on SMM in Hamburg.

Around the world SAILOR is known and recognized for its robust communication equipment for the harsh conditions at sea. The SAILOR SP3300 is specifically designed to meet the GMDSS requirements for portable VHF's, as well as fulfilling the need for easy-to-use portable VHF's. This combination makes it highly suitable as a working communication tool in the tough environment onboard a vessel.

The small and handy designed SAILOR SP3300 has large buttons and a backlit display, a powerful loudspeaker, as well as a practical belt clip, which makes it an excellent tool for every day communication onboard vessels. The SAILOR SP3300 fulfils the GMDSS safety requirements and is Wheelmark approved.

#### Features

- Small size
- Lightweight
- Large and easy to read backlit display
- Two types of battery
- Fast charger and standard charger
- Strong and easy-to-use belt clip
- Waterproof to IP67
- Triple watch possibility
- Flexible antenna
- GMDSS approved - Wheelmark

That the SAILOR SP3300 is also suitable for daily boat handling is furthermore stressed by a special battery package with a Lithium battery for safety situations and a rechargeable NiCa battery for everyday communications. With the fast charger it only takes 1½ hour to recharge the NiCa battery.

The SAILOR SP3300 portable VHF can be tested "live" on the internet. A simulator that allows you to go through the entire menu can be found on [www.sailor.dk](http://www.sailor.dk)
