Announcement no. 13 - 2006/07

August 22, 2006

THRANE & THRANE TO IMPLEMENT NEW INMARSAT BROADBAND SERVICES

In March 2006, Thrane & Thrane entered into a BGAN Extension contract with Inmarsat for an upgrade of the RAN (Radio Access Network) Satellite Access Stations to provide broadband services for maritime (FleetBroadband), aeronautical (SwiftBroadband) and land vehicular (BGAN) usage.

The BGAN Extension contract included specification and design work valued at USD 1.9 million (DKK 12 million). It also included Inmarsat's intention to implement and test the new FleetBroadband, SwiftBroadband and land vehicular BGAN services on the RAN Satellite Access Stations.

Thrane & Thrane has now entered into a contract with Inmarsat for the implementation of these broadband services on the RAN. The contract has a value of USD 7.45 million (approx. DKK 45 million) and is scheduled for completion in the second quarter of the calendar year 2007.
